Gracks At Creation

Did you know?
That seventy six thousand farmers in the United States own "Benzine buggies."

That farming is hard work and the farmer is entitled to joy rides if any one is.

That no one should begrudge the farmer an Auto, if he wants to buy one. It is nobody's business if he doesn't mortgage the farm or neglect the seed time and harvest to do it.

That the farmer can utilize it for going to mill, for going fishing, for meeting friends at station and he can even take the town folks out riding.

That we drink from public drinking cups, use public towels, place pencils, money and numerous other articles of more or less public property in our mouths.

That we eat apples and other fruit that has been exposed to the dust of the street, without washing them and yet we wonder how we happened to contract certain diseases.

That nurses in taking care of typhoid and other infectious or contagious diseases are taught to never eat or even take a drink of water, without first bathing the lips to remove any germs that may be residing there.

That facts and bolts may be endured but seldom avoided once they get started upon their way.

That the growth of money is a strange thing, for some it refuses to sprout at all, for others it grows in great clusters on low bushes.

That a brother is a great education. He is an entire correspondence course—common sense taught while you wait. "Don't be treated by other boys as I treat other boys sisters" a favorite lecture among them.

That we blame so many things on "Providence" that really are due to our carelessness or ignorance.

That Lancaster has some Dreadnoughts in the way of small boys and bids fair to have more.

That the road to the Fair Grounds reminds me of the Riverside driveway in New York City.

That I think Squire Jim Bourne is the original Boulevard builder from Boulevardville.

That floating high on the waves of success that has billowed loftier each year since its opening, the Lancaster Fair expects this year to break the record.

How often do we hear people say: "Where in the world do all the flies come from? It is simple enough. The toper makes the blue-bottle fly, the sterner father makes the gad fly, the cyclone makes the house fly, the blacksmith makes the fire fly, the driver makes the horse fly, the grocer makes the sand fly, and the boarder makes the butter fly."

Pretty Good Answer.
At a London board school the teacher had explained to the children the meaning of the word "ability." "Now, children," she went on, "what word would express the opposite to ability?" A sharp-faced little boy at the end of the end form bobbed up his head and exclaimed: "Please, teacher, nobility!"
—Work and Play.

UNION.

Messrs. Win and James Parson, of Garrard, visited their father, R. F. Parson, Sunday.

Mr. Charles Ramsey had a horse to fall on his leg, dislocating his ankle.

Hogs and labor have gone up in a balloon in this vicinity, almost impossible to secure either.

Will Attempt to Pool 1910 Crop.

At the meeting of the Burley Tobacco Society last week at Lexington there were many plans advanced as to what should be done with the 1910 crop of tobacco. After two days of discussion the following plan was agreed upon by the adoption of the resolution offered by the committee appointed by the organization. The report as adopted is:

"To the officers and members of the District Board of the Burley Tobacco Society: Your committee, to whom was referred the questions taken up for reconsideration, would respectfully beg to submit the following report, which we recommend as the proper action for this board, to-wit:

"We will prior to October 1, 1910, or we will recommend that our successors take such action on or before November 1, submit to the poolers of the 1910 crop all information in our possession as to the number of acres of Burley tobacco pooled in the district, and the number of acres planted and unpooled in said district, and place upon them (the poolers) the responsibility of deciding a pool by a vote of the various precincts in each county at the time and in the manner hereinafter suggested by the Burley board or its committee.

"Each pooler at said election to be permitted to vote upon the question the number of acres he has pooled and will be supplied with a ballot for that purpose. After said vote is taken at the precinct the result will be reported immediately to the county board, where a record of same will be made on the minutes of said county board, and the results tabulated and counted and recorded to head quarters at Lexington. The result of the entire district will then be ascertained at head-quarters by careful computation and count, and the question of determining whether or not a pool shall be declared off or on, shall be ascertained by this final count, the majority of the votes to determine the matter either for or against the pool.

R. H. Elston,
A. E. King,
L. H. Willis,
F. P. Mann,
M. H. Bourne."

It will be seen that the final determination of the pool depends upon the result of the present vote of those who sign the contract for the 1910 pool. If a majority of those who have signed the contract vote in favor of declaring it a pool, the pool will be effective regardless of the per cent of acreage of the growing crop that is in or out of pool.

How to Cure Eczema, Pimples, and Dandruff.

We desire to say that when we took the agency for ZEMO, we were convinced that it was a valuable remedy for Eczema, pimples, and dandruff. Yet, we must frankly admit that ZEMO has far exceeded our expectations as a treatment for skin diseases. We are pleased to state that we shall continue the agency as ZEMO has given splendid results wherever recommended. Our customers like ZEMO too, because it is a clean vegetable liquid for external use.

ZEMO effects its cures by drawing to the surface of the skin and destroying the germ life that causes the disease, leaving the skin clear and healthy. It does not soil the clothing or linen and can be used freely on infants. With every purchase, we give a booklet on skin diseases explaining in simple words how any person can be cured at home of any form of skin or scalp diseases by this clean, scientific remedy. R. E. McRoberts druggist.
